Contemporary, Elegant, Stylish

Contemporary

If you are looking for a roof that will amaze, standing seam is the ticket. Popular for it's use on historical buildings such as the Monticello, standing seam has come into it's own as a premium roofing system, offering a fresh vibrant look.

Elegant

With it's sleek lines and hidden fastener design, Image-II standing seam offers elegance without sacrifice.

Stylish

For timeless style, consider a roof that has never lost it's appeal. Standing seam is a roof system that will have your neighbors looking, while enduring for generations.
Some styles fade in and out, but simple beauty never loses it's appeal.
Advanced Protective Coatings

Our Standing Seam is protected by baked on enamel paint: tough for installation, resistant to fading, and Energy Star® reflectivity to save on utility bills.

1. BAKED ON PAINT
2. PRIMER
3. ZINC-PHOSPHATE PRE-TREATMENT
4. PROTECTIVE GALVALUME
5. STEEL

Paint: Durable baked on paint offers a permanent finish, easily lasting 40+ years. This ensures protection and beauty for years to come.

Galvalume: Under the paint, Galvalume (55% zinc, 45% aluminum) provides lasting corrosion protection, even if paint is scratched during installation.

Steel: A heart of high-tensile steel guarantees strength and endurance. With the highest ratings possible for wind, hail, and fire, Image-II is ready to weather anything nature throws its way.
