### **EagleView® Technologies Offers Customized Report Covers**

(Bothell, Wash., February 1, 2010) - EagleView Technologies, the leader in aerial roof measurements, now offers contractors the option to customize their EagleView report cover with their company logo and contact information. Contractors simply upload their company logo and choose from one of five different report covers to receive a personalized EagleView report.

“We realized that many roofing contractors liked the professional look of the EagleView report but were looking for something that could really be a sales and marketing tool for their business,” said Chris Barrow, President and CEO of EagleView Technologies. “Offering customized covers is a way we can add even more value to this report for the roofing contractor. “

Contractors simply upload their logo after they log into MyEagleView on the EagleView website. They can view their logo and contact information on five versions of a customized cover and select the one that meets their needs. The report becomes a professional, customized marketing tool that will assist the contractor in making an impressive presentation which can lead to closing more sales. “In addition to the most accurate 3D aerial roof measurements, contractors now have a very powerful, customized sales and marketing tool to help them make a lasting impression on their customers and gain their confidence,” explained Barrow.

#### **About EagleView Technologies**

Headquartered in Bothell, Wash., EagleView Technologies, Inc. invented the concept of aerial roof measurements and the proprietary patent pending software and process which provides detailed calculations that offer the highest accuracy and precision of any other method. EagleView is currently in its sixth generation of aerial measurement software. With the EagleView reports, roofing contractors and insurance adjusters see significant improvement in measurement accuracy along with dramatic increase in profitability. For more information contact EagleView Technologies at (866) 659-8439 or at [www.eagleview.com](http://www.eagleview.com).
