

This TruScript preferred drug list identifies prescription drugs with preferential pricing that are likely to reduce the patient's out of pocket prescription drug expenses. This list is intended to be a guide and can be shared with the patient's physician to identify the best prescription drug to treat the patient's need. Prescribers should prescribe generics whenever possible. Drugs listed in **bold** are Brand Name Drugs while those not in bold are Generic Drugs.

Tier 1

30-day supply cost: \$0.00

A	AMOXICILLIN 500MG	BUSPIRONE HCL 5MG	CLONAZEPAM 1MG	ESCITALOPRAM OXALATE 5MG	GLIMEPIRIDE 4MG

The pricing and inclusion of any prescription drug within this preferred drug list is subject to change and is not guaranteed. Pricing is based on the NDC. The NDC identifies the drug and manufacturer and prices vary widely from one manufacturer to another. If the pharmacy dispenses the prescribed product with a different NDC than for those NDCs included in this formulary list, the pricing charged by a pharmacy may be different than the amount listed. While we strive to maintain up to date pricing, drug manufacturers and pharmacies may alter pricing at any time creating the opportunity for an outdated pricing to be displayed before price changes can be updated on this formulary list.

The pricing and inclusion of any prescription drug within this preferred drug list is subject to change and is not guaranteed. Pricing is based on the NDC. The NDC identifies the drug and manufacturer and prices vary widely from one manufacturer to another. If the pharmacy dispenses the prescribed product with a different NDC than for those NDCs included in this formulary list, the pricing charged by a pharmacy may be different than the amount listed. While we strive to maintain up to date pricing, drug manufacturers and pharmacies may alter pricing at any time creating the opportunity for an outdated pricing to be displayed before price changes can be updated on this formulary list.
