

Transforming your business with Podium can start now.

Take Aaron, for example. Aaron owns a small roofing company in Indiana. He signed up, dove right in, and collected 47 Google reviews over his first weekend.

DAY 3

I got 47 reviews so far

DAY 4

Hey, just fyi, I just got a call off Google. When I came over and asked the guy how he heard of me, he said he was looking for a roofing company with good reviews. He will be a wind claim. His neighbor called me over when I was leaving. He will be a wind claim too.

DAY 5

I just got another one from Google. That's 2 in 2 days. I have had zero that I know about up to this point. Thank you. This just changed my whole business I believe. Add the webchat my guy!

In less than a week, Podium paid for itself and changed Aaron's roofing business. If you don't believe us, just check out the 5-star review he left us.

I own a roofing company in Indianapolis. I heard about Podium at an OC event where David spoke. I know the power of texting and reviews because I work mainly via text but I was hesitant to sign up as I'm pretty frugal. Well I decided to give it a go. I sent a lot of my old customers a follow up text asking how their work stood up this winter and if they needed anything but also asked for a review using this app. I have about 40 reviews after the first weekend. I shot to the top of Google Maps and have had 2 Google leads in the first 3 days where as I had zero up until that point. This platform just changed my business and it hasn't even been a full week yet. Wow. Highly recommend!!
