

Vertical Waterproofing Protection

Premium Self-Adhering Waterproofing Protection for Metal Wall Systems

Ultra HT Wind & Water Seal™ is a 45 mil, self-adhering waterproofing membrane composed of tough, cross-laminated polymer film laminated to a **High Temperature** adhesive system.

Ultra HT is ideal for vertical applications under metal panel systems and parapet walls. Ultra HT withstands the high heat generated to provide complete waterproofing protection.

Ultra HT Wind & Water Seal™ Features:

- ◆ Composed of a tough, cross-laminated polymer film
- ◆ Rated for **High Temperature** applications up to 250°F (121°C)
- ◆ Self-sealing around fasteners
- ◆ Ultra HT is a vapor barrier – allow for proper ventilation of the wall system by leaving a minimum air gap of 1" (2.54cm)
- ◆ During installation, use termination bars and button caps 6" (15cm) on-center
- ◆ Protects from leaks caused by wind-driven rain
- ◆ May be left exposed for 90 days
- ◆ 10-year limited warranty
- ◆ Made in the USA
- ◆ Always follow all applicable local/state building codes

Ask about our unique Co-Branding Program where your company name is imprinted on the product for excellent exposure on the jobsite.
