

Five Reasons To Use LP® TechShield® Radiant Barrier

1

Energy Efficiency

LP TechShield® Radiant Barrier Sheathing can block up to **97%** of radiant heat transfer through roof sheathing. It is a cost-effective way to make a home more energy efficient.

2

Code Compliance

Radiant barriers can help builders meet various energy codes and qualify for local energy efficiency programs. It may help qualify for certain Green Building credits and lower a home's HERS score.

5

Proven Performance

LP TechShield sheathing has over a 15-year track record of proven success. It is America's original and #1 brand of radiant barrier sheathing.

3

Easy Installation

LP TechShield sheathing installs like conventional roof sheathing, requiring no additional labor.

4

VaporVents™

To let moisture escape, LP TechShield sheathing features patented VaporVents™ technology, with post-lamination incising that allows the panel to dry more quickly than other radiant barrier sheathing when moisture occurs during construction and allows for continued moisture evaporation after installation.
