Job Safety Analysis Of The Rescue:

If a fall has occurred, immediately review the following checklist.

Remember, a quick rescue is critical to preventing secondary injuries and death.

- _____ Can you pull the fall victim to safety and avoid hanging in suspension?
- _____ Is the victim clear of obstructions when they are lowered?
- _____ Does the lifeline deploy correctly?
- _____ Is the lifeline long enough?
- _____ Can you see the victim throughout the entire rescue operation?
- _____ Do rescuers have access to a lift?
- _____ Have emergency services been called?
