

REPAIR BOSS

The best bosses care about the people doing the work. RepairBoss drains and scuppers install with just a few twists of a dial. And TrafGuard walkway pads protect the roof surface AND the people walking on it.

Drains & Scuppers

Sturdy drain replacement dome that installs quickly with no tool required and fits 2"-8" drains.

Fits most scupper outlets and provides protection against clogging in minutes, with no tools required.

Walkway Pads

Made from recycled rubber for excellent traction, withstand severe weather and high foot traffic.

Commercial Coatings, Primers and Sealants Summary Chart

PRODUCT	DESCRIPTION	SUBSTRATES	APPLICATIONS
RESTORATION SYSTEMS			
RepairBoss BUR Restore	Rejuvenates aged asphalt flood coats and restores many of its original properties. Its even blend of premium oxidized asphalt and penetrating oils, with quality non-asbestos reinforcing fillers, provides rejuvenating qualities to worn-down asphalt BUR systems.	Aged asphalt gravel BUR, aged smooth asphalt BUR, aged asphalt mod. bit.	  
RB Tar Armor	Designed for waterproofing a variety of structural surfaces, using a blend of asphalt, refined coal tar pitch, aromatic solvents, and thermoplastic polymers to form a strong, flexible, monolithic, seamless membrane. Can also be used as a compatible adhesive with both coal tar pitch and asphalt roofing systems.	As a waterproof resurfacing over asphalt BUR or gravel surfaced coal tar BUR.	  
HD Silver	Provides reflective and protective properties to a variety of roofing substrates.	BUR, modified bitumen membranes and metal roofing.	 
Asphalt Primer	Designed to penetrate porous surfaces and bind exposed, dry or dusty roofing felts and scrim.	Wood, metal, BUR, concrete & masonry.	  
MASTICS			
All Roof Repair Mastic	One-component product with exceptional ability to adhere to fasteners, laps, and penetrations on various roof surfaces.	Fasteners, laps, and penetrations on metal, modified and BUR, urethane foam, and single-ply roofs.	  
Seam Mastic	Unique rubber compound that is extremely effective for sealing fasteners, laps and penetrations.	Fasteners, laps, and penetrations on metal, modified and BUR, urethane foam, and single-ply roofs.	  
Emergency Sealer	Designed specifically to seal any rooftop areas of possible water infiltration, including roof penetrations, curbs, seams, and flashing areas. It is a high solid, low-VOC, one-part silicone elastomeric flashing grade that is the sealant of choice for roofs previously coated with a silicone elastomeric coating.	Metal, smooth BUR, single ply membranes, cap sheet, modified bitumen and other systems.
