

Cold Weather Flashing for Windows and Doors

Low Temperature Rating
for Cold Weather Applications

WindowWrap PowerBond®

WindowWrap PowerBond® and WindowWrap Flex PowerBond™ are self-adhesive, self-sealing waterproofing tapes that bring quality and value to any building application.

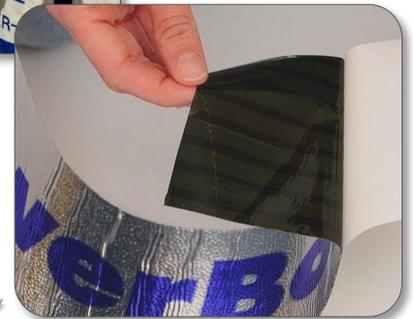

These advanced flashing solutions are the ultimate defenders against wind, water, insect and sound from penetrating into the structure.

- Eliminates leaks and drafts
- Installs in temperatures as low as 25°F (-4°C) while remaining stable at elevated temperatures
- Prevents the formation of mold and mildew
- Fast and easy installation
- Versatile – varied widths and styles for standard windows, doors or curved openings
- Available in shrink wrapped rolls for retail display
- Made in the USA

WINDOW WRAP
POWERBOND®
AGGRESSIVE LOW TEMPERATURE FLASHING

WINDOW WRAP Flex
POWERBOND™
FLEXIBLE WATERPROOFING MEMBRANE

WindowWrap PowerBond® is composed of a patented, 2-part adhesive system that aggressively adheres in low temperatures.
