

## DO-IT-YOURSELF

Whether you need a garage, extra storage for your lawn tools or additional workspace for your hobbies, the Metal Depots Handyman Series is the quintessential do-it-yourself structure. The only building of its kind on the market, the Handyman consists of wood post columns (sold separately) and steel framing. This unique hybrid framework style ensures that the Handyman is as economical as it is customizable. With a variety of color combinations and sizes from which to choose, you can be sure to select the perfect building to meet your needs.

HANDYMAN SERIES

Depending on your individual needs, you can order your Handyman with or without insulation.

## QUICK AND EASY INSTALLATION

The Handyman can be assembled on a level dirt, crushed rock, or concrete pad. If desired, a concrete slab can be poured after the substructure has been constructed. The Handyman Series buildings have been engineered to withstand up to 110 mph wind loads. It is available for order with or without insulation. The Handyman framing system is cut to length and comes with pre-punched holes, thus eliminating measuring concerns and making installation quick and easy. With a lead time of only one week, you won't have to wait long at all to erect your very own Handyman structure.

## THE BUILDING KIT INCLUDES:

- 26-gauge PBR metal roof and wall panels
- Simple eave and gable trim standard; gutters and downspout optional
- Detailed erection drawings
- Wall panels and trim available in Signature® 200 colors
- Roof panels available in Galvalume®; may upgrade to Signature® 200 color
- Additional options are available. Please refer to the Options & Accessories listed on the back page.

## AVAILABLE SIZES:

- Widths: 18', 21', or 24'
- Lengths: minimum of 24' with unlimited 12' bay add-ons
- Eave Heights: 11'2" or 13'2"

Hundreds of enticing color combinations are possible with our Signature® 200 Standard Colors.

The Handyman is available in a wide variety of color combinations. You may select from any of our 14 Signature® 200 Standard Colors for your roof panels, wall panels, and trim. Roof panels come standard in Galvalume®, but you may upgrade to a Signature® 200 color if you choose.
