FASTER AND EASIER LIGHTWEIGHT REAL SLATE ROOFING

DURABILITY

Slate is a long-lasting, high strength, weatherproof and fire resistant natural material which holds natural beauty and remains unchanged over time.

SUSTAINABILITY

Our 100% natural slate is split by hand and uses no additional chemicals, which combined with its unmatched durability, makes it a sustainable material with low environmental impact.

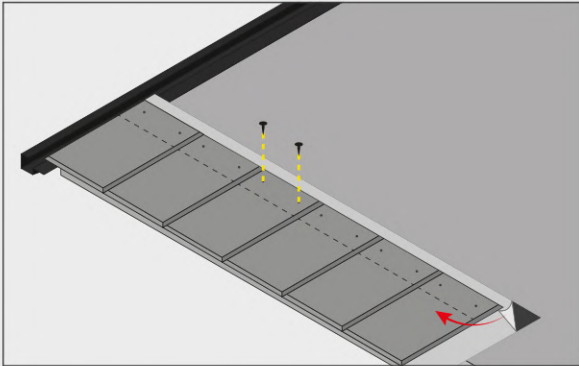

PERSONALITY

Characterized by its beautiful sheen and incomparable texture, natural slate is a noble, elegant, personality-packed material, bringing prestige to the surfaces where ever it is used. Each piece of slate produced is unique.

SIMPLE

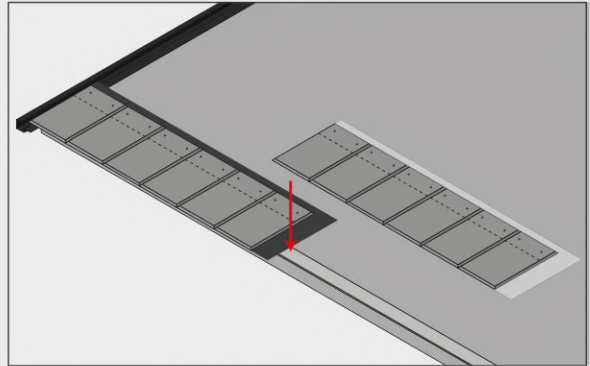

Our installation guide provides easy to follow instructions and does not require specialized tools. READYSLATE® panelized design provides robust water shedding abilities while using a classic material and standardized accessories.

1

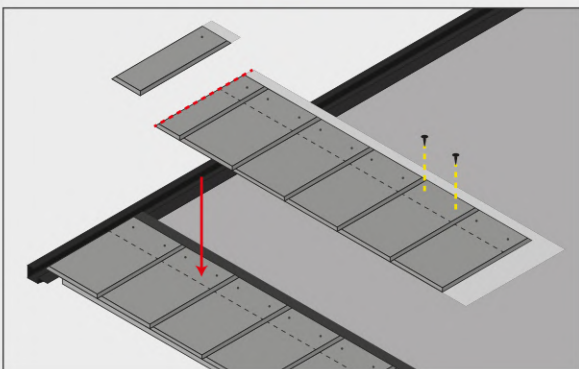

READYSLATE® is easily installed with nails. All individual slate tiles are predrilled to simplify the installation process. Once fitted, peel back the protective film.

2

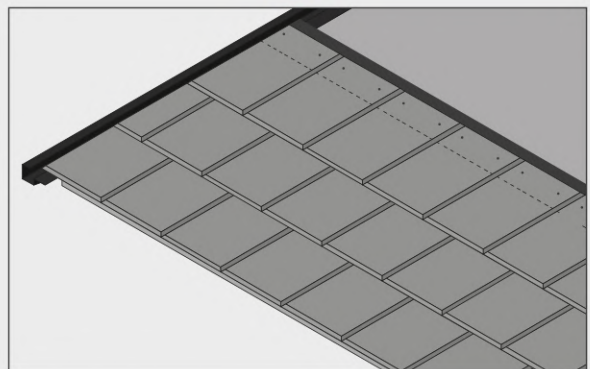

READYSLATE® modular design makes laying slate tiles a breeze. Aligning modules is even easier; just cover the spare area on the waterproof sheet.

3

READYSLATE® slate tiles are marked with an overlapping line to ensure all modules are easily and correctly laid.

4

Easily adapt modules to any roof element to complete your own waterproof, resistant and eco-friendly natural slate roof.

ROOFING COVERAGE

3.23 sqft/panel

12.92 sqft/box

NAILING SCHEDULE

3.75 nails/sqft

60 nails/box

10 gauge, 1.5" copper or stainless steel nails

Valleys, ridge, hips: READYSLATE® can be combined with most of flashings and waterproofing solutions.

**Please consult our step-by-step installation instructions for more information.*

ADVANCED

LIGHTWEIGHT

READYSLATE® modules are lightweight and flexible without losing strength and resistance. It is designed to comply with most residential roofing requirements, weighting under 6 lbs per sqft.

EASY TO INSTALL

READYSLATE® modules allow installers to place 6 pieces of slate at time and eliminates the need for highly specialized installation methods. This allows READYSLATE® to be faster and easier to install than the alternatives.

QUALITY

READYSLATE® modules are composed mainly of slate, the longest lasting and most durable material used for roofing. Accordingly, it's ready to last a lifetime and it's covered by our Limited Lifetime Warranty.

INCREASES HOUSE VALUE

READYSLATE® modules provide considerable added value to any property. Slate provides a great return on investment all while enhancing your home's curb appeal. The natural beauty of slate cannot be achieved with artificial alternatives.
