

## ROOF RESTORATION SOLUTIONS

# STORM BREAKER™

### STORM BREAKER™ OFFERS RESTORATION SOLUTIONS FOR EVERY ROOF

#### **COST EFFECTIVE**

Coating generally costs less than a full roof replacement

#### **ROOF LIFE**

Extend your roof's life by years or even decades

#### **ENERGY EFFICIENCY**

Coatings can often reduce expensive cooling costs

#### **LESS DISRUPTIVE**

Coating your roof is quicker and typically doesn't require a disruption in operations

#### **ENVIRONMENTALLY FRIENDLY**

Coating reduces waste from discarded roofing materials

# RESTORE. DON'T REPLACE.

# STORM BREAKER™

## RESTORATION SOLUTIONS FOR EVERY ROOF

### HB SILICONE ROOF COATING

With its resistance to ponding water and 100% silicone composition, Storm Breaker's HB Silicone Roof Coating provides proven performance. To complete the system, Storm Breaker also offers 100% Silicone Skylight Coating and a Silicone Walkway Coating system.

### SEBS RUBBERIZED ROOF COATING

Storm Breaker's SEBS elastomeric rubber coatings provide a seamless flexible membrane over metal roofs or a range of other substrates, including aged skylights in need of restoration.

### ACRYLIC ROOF COATING

Storm Breaker's bright white acrylic coatings not only extend a roof's life but can improve a building's energy performance.

### URETHANE ROOF COATING

Strong, flexible, and durable, Storm Breaker Urethane Coating provides a trusted layer of protection over modified bitumen, smooth BUR, concrete, and masonry.

### PRIMERS & ACCESSORIES

Storm Breaker primers are specifically designed to improve adhesion on a variety of substrates, including rusted metal roofing, spray polyurethane foam, single ply membranes, and much more. A full line of polyester Reinforcing Fabrics, Butyl Fleece Tape, flashing compounds, sealants, and surface fillers are also available.

## RESTORE. DON'T REPLACE.
