

RAISE THE ROOF

EDUCATE ■ INSPIRE ■ SUPPORT

WHAT OUR MEMBERS SAY

Lorraine Koertzen

“RTR Roof has helped me find a place where we can all speak the same language, understand each other and I know that if I needed support, it’s there,

I don’t feel weird or out of my comfort zone when around my fellow members I feel safe and confident in myself. Its a group that allows our individual personalities to shine.

It gives me courage to talk about experiences and most of all its a great place to network with some very inspirational women who are willing to share what they have learned”

“Being part of Raise the Roof has truly empowered me to embrace my role within the construction industry.

Just like the fellow members of the group, I've found a community where our shared experiences and challenges are acknowledged and supported.

RTR has not only given me the courage to share my own journey but also provided a network of inspiring women who are committed to lifting each other up. It’s a place where our individual strengths shine, and together, we’re shaping a more inclusive future for women in construction.”

Ruth Scarrott

Being a part of Raise the Roof has been amazing!

I'm very fortunate to be working closely with Kate and Denise, they both offer support and guidance.

Their support has been invaluable to the provision we offer to young people at Juniper Training that have aspirations to pursue a career in roofing.
